

Winter Color Scavenger Hunt

Name: _____

Date: _____

Directions:

1. Find an object in nature such as an opened acorn. Record in table.
2. Record the main color of the object in the table (ex: orange)
3. Look closely at the item and observe any variations in the main color along with other colors that can be found. For example: an item may mostly be orange, but contains different shades (tones) of orange such as yellow-orange or dark rusty orange. The object might also contain brow, black, and red.

Winter Color Scavenger Hunt

Detailed Sketch

Name: _____

Date: _____

Directions:

1. Pick 1 object you observed during the nature scavenger hunt to draw.
2. Write the name of the object in the narrow area below.
3. Draw a detailed sketch of the item in the large space below.
4. Add the correct colors and color tones (different shades of a color) that you recorded on the table.
5. Challenge: Add labels if you know the specific parts of the object. Ex: stem or leaf bud.
